*1880 Perry County
Census*

*Inez Bost Eisenhauer
July, 1997*

FOREWORD

The 1880 Perry County census was like most records which have been microfilmed, good in some places and terrible in others. Weak ink and poor writing are problems which are very difficult to overcome. For this reason there are times when this transcriber guessed at entries. These will be enclosed in parenthesis to warn that it is just a guess. Example: Ge(or)ge.

There are approximately 16,000 persons listed in this census. It took over four months to transcribe. Since there does not seem to be a computer program which will do what is necessary for a task such as this, many "do-fers" have been applied.

Do not accept this work as your final proof. Some enumerators did not seem to care about correctness. When you find a 1 year old listed as a 'farm worker' or a 3 year old as the 'Head of Household', you must doubt the veracity of the enumerator. Many times it seemed one got started on ditto marks and just couldn't quit. They had no idea that over one hundred years later we would be going over these records trying to find our ancestors.

Please use this only as a guide and then go to the microfilm source and draw your own conclusions. Much care was taken to transcribe as correctly, but being human, there is no doubt many errors do exist.

Hopefully, you will find the family, or person, who has eluded you so long.

ENJOY!!!

TAMAROA

Ellis, Elvina 40 w f (2)6 10 k insane Ill Va Tenn

The above named person was enumerated in June 1880 upon Su?? Sched. but the name was omitted from Population Schedule. This sheet was sent to the Enumerator and the missing data as to age , color, sex, nativity be supplied by him. ??????? Chief Clerk

(Note by Inez: The enumerator changes at this point. He shows even a two year old as single. Due to the great length of this transcription, we have omitted this type of entry for younger persons.)

(There is ■ statement signed by R. P. Heam that he had completed the enumeration of the District assigned to him on the 24th day of June, 1880. The next section, by H. H. Taylor is poorly written. He does not always use birth places for parents in the child's record as previously done. His capital K is made like a capital R, he frequently does not cross t's, many letters are left out of words and m's, n's, i's, u's, etc are just waves and squiggles. I always try to avoid guessing but in the following it cannot be avoided. Please check out information on the microfilm as there is such ■ large margin for error on my part. IE)
